

QUALITY POLICY AND ENVIRONMENT

ONTALO GROUP, an organization whose main vocation is the "Design and commercialization of plastics for different sectors", being experts in the development of new products that innovate and can offer added value to customers, has decided to implement an Integrated Management System of Quality and the Environment based on ISO 9001: 2015 standards to improve the service it provides to its clients and ISO 14001: 2015, to improve performance and efficiency with the environment.

The ONTALO GROUP Management focuses on the Quality and Environmental Management System as a way of organizing the operation of the ONTALO GROUP based on basic pillars such as the Quality of its products and the satisfaction of the interested parties, in addition to managing the environmental aspects, emergencies, risks, legal requirements and continuous improvement of the effectiveness of the System. For this, the SGI of ONTALO GROUP is based on:

- The master lines of the Integrated Quality and Environmental System that are reflected in the Quality and Environment Manual, which is conceived as a result of a continuous analysis of our context and the analysis of risk and opportunities. This means that the integrated policy acquires a strategic vision of the company and that is why it is declared mandatory, with all personnel assuming the responsibilities defined there.
- In the organization's strategy, which undertakes to comply with applicable environmental legislation and regulations in our activities, as well as with other commitments that may be established in this regard, striving to continually improve our environmental performance.
- Promote efficient use of available natural resources and continuously intensify our environmental management to obtain improvements in the overall behavior of the company, with a focus on life cycle analysis.
- Identify and control the environmental aspects of the organization and the risks, in such a way that we establish a preventive approach.
- On an annual basis, the Manager makes public and extensive to all personnel, the Quality and Environment objectives for the year. These should be well known and assumed by all staff, so that daily tasks lead to their achievement in the shortest possible time.
- Train and sensitize the organization's personnel regarding environmental performance, as well as provide the necessary resources for the proper functioning of the environmental system.
- In the technical and scientific knowledge available and the appropriate practices for the prevention of environmental pollution, and the minimization of the environmental impact in all processes and services, trying to achieve continuous improvement of environmental quality.
- In training in all areas that are specific to them, both in the technical, administrative, commercial and environmental branches, thus being able to achieve greater motivation of the staff and greater involvement in achieving the objectives. ONTALO GROUP understands that the quality of the company passes through customer satisfaction, through the continuous improvement of the system's effectiveness and through respect for the environment. Internal promotions will be based on the training of people and their activities in terms of quality and productivity.

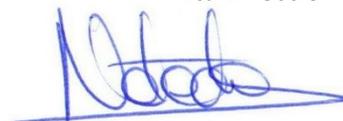

QUALITY POLICY AND ENVIRONMENT

- In the commitment to pay maximum attention to technological evolution and possible improvements that new technologies make available to us.

The Management will maintain a system for the identification of training needs and its planning, aimed at guaranteeing the compliance of our personnel with this Environmental Policy.

This policy is applicable to ONTALO GROUP, being implemented within a framework of a Quality and Environmental Management System in accordance with the UNE-EN ISO 9001/2015, UNE-EN ISO 14001: 2015 standards. In this sense, Quality and Environmental Management requires the participation and collaboration of everyone, so this Policy is disseminated to all company personnel for their knowledge and understanding.
